

# SUPER-LAWNWEEDER

Selective systemic control of broad leaf weeds on lawn, sport fields, golf courses, bowling rings and parks

## Super-Lawnweeder offers

- Selective.** Control only broad leaf weeds without effecting your turf-grass.
- Systemic.** Control weeds right down to their roots.
- Triple action.** Contains three active ingredients for superb control.
- Advanced absorption.** Contains an unique and advanced built-in absorbing system to increase absorption to only two hours. This is three times quicker than conventional formulations (which is 6 hours).
- Potent knockdown** Contains a potent knock down on tough broad leaf weeds.
- Lower rates.** Super-Lawnweeder can be used at lower rates than conventional herbicides due to increased absorption.
- Safety.** Areas treated with Super-Lawnweeder can be re-entered sooner than conventional herbicides, due to quicker absorption.

*After*

Application rate:

Greens and bowling rings - 2 liters / hectare (20ml / 4 liters water/ 100m<sup>2</sup>)

Sport fields, Lawns, Fairways - 5 – 7 liters / hectare (50 – 70ml / 4 liters water/ 100m<sup>2</sup>)

**Controls the broadest spectrum of broad leaf weeds**
