

SUPER LAWNWEEDER

Reg. Nr. L.4370 ACT/WET 36 from 1947

**Systemic control of broad leaf weeds on
lawn, sport fields, golf courses, bowling rings
and parks**

Before

After

SUPER LAWN WEEDER is an advanced formulation with a triple systemic action and an advanced built-in absorbing system for the superb control of a broad spectrum of broad leaf weeds.

The advanced build-in absorbing system enables the active ingredient to be absorb within two hours. This is three times faster than conventional formulations.

Application rate:

Greens and bowling rings

2 liters / hectare (20ml / 4 liters water/ 100m²)

Sport fields, Lawns, Fairways

5 – 7 liters / hectare (50 – 70ml / 4 liters water/ 100m²)

Distributed by HENCHEM (021) 948-7366
