

ALPHATHRIN®

Reg.No. L7850 Act / Wet No. 36 / 1947

An odourless, low toxicity, low application rate, no staining, high-performance concentrate insecticide for the long term control of a broad public health pests

This professional product is highly active against all major hygiene pests and suitable to be used in the most sensitive areas as well as highly invested agricultural and industrial sites. ALPHATHRIN provides outstanding long-lasting control although applied at very low application rates.

LOW MAMMALIAN TOXICITY. ALPHATHRIN is extremely safe and can be applied in sensitive areas, such as hospitals, day care centers and kitchens. Oral toxicity of more than 2000 mg/kg and dermal toxicity of more than 4000 mg/kg.

LOW APPLICATION RATE. ALPHATHRIN can effectively be applied at very low rates (as low as 12.5ml/5 liter water). This mean less product to carry around while reducing cost.

ODOURLESS & STAINLESS. ALPHATHRIN is completely odorless, it is also a water-based formulation which does not stain.

LONG LASTING. Under ideal conditions ALPHATHRIN will control pests for up to 4 months, with a single application.

VERY LOW APPLICATION RATE:
12,5 to 25ml per 5 liter water

VERSITILE. ALPHATHRIN can be applied in restaurants, hotels, day-care centers, kitchens, residential dwellings, commercial and industrial facilities & animal dwellings.

COST-EFFECTIVE. The low application rate of ALPHATHRIN makes it one of the most cost-effective pest control products whilst providing professional results.

ENVIRONMENTALLY FRIENDLY. ALPHATHRIN is biodegradable and does not built-up in the environment.

EASY TO USE. Mix required product with water and apply with any pressurized spray equipment onto areas frequented by target pest.

ACTIVE INGREDIENT Alpha-Cypermethrin 100g/l SC (Pyrethroid)

Alphathrin is available in 100ml, 200ml and 1 liter

BROAD SPECTRUM

ALPHATHRIN controls Adult house & stable flies, Ants, Bedbugs, Cockroaches (American & German), Fish moths & Fleas.
