

ALPHATHRIN

Reg.No. L7850 Act / Wet No. 36 / 1947

Long term control of house hold pests

This professional product is highly active against all major hygiene pests and suitable to be used in the most sensitive areas.

EASY TO USE

Step 1:

Mix 5ml Alphathrin in 1 liter water

Step 2:

Paint or spray onto areas where pests sit or move over (walls, floors inside cupboards, window frames, inside and outside)

Paint on

or

Spray on

Lasts up to 4 months

LONG LASTING. Under ideal conditions ALPHATHRIN will control pests for up to 4 months, with a single application.

BROAD SPECTRUM. ALPHATHRIN controls adult house & stable flies, ants, bedbugs, cockroaches (American & German), fish moths & fleas.

VERSITILE. ALPHATHRIN can be applied in restaurants, hotels, day-care centers, kitchens, residential dwellings, commercial and industrial facilities & animal dwellings.

COST-EFFECTIVE. The low application rate of ALPHATHRIN makes it one of the most cost-effective pest control products whilst providing professional results.

ENVIRONMENTALLY FRIENDLY. ALPHATHRIN is biodegradable and does not built-up in the environment.

LOW TOXICITY. ALPHATHRIN is extremely safe and can be applied in sensitive areas, such as hospitals, day care centers and kitchens.

LOW APPLICATION RATE. ALPHATHRIN can effectively be applied at a very low rate (as low as 5ml/1 liter water).

ODORLESS & STAINLESS. ALPHATHRIN is completely odorless, it is also a water-based formulation which does not stain.
