

ALPHATHRIN

odorless

An odorless, low toxicity, low application rate, no staining, high-performance concentrate insecticide for the long term control of a broad spectrum public health pests

LOW MAMMALIAN TOXICITY ALPHATHRIN is extremely safe and can be applied in sensitive areas, such as hospitals, day care centers and kitchens. Oral toxicity of more than 2000 mg/kg and dermal toxicity of more than 4000 mg/kg.

LOW APPLICATION RATE. ALPHATHRIN can effectively be applied at very low rates (12,5- 25ml / 5 liter water).

ODORLESS & STAINLESS. ALPHATHRIN is completely odorless, it is also a water-based formulation which does not stain.

BROAD SPECTRUM

Ants, cockroaches (American & German), adult house & stable flies, fleas, fish moths & bedbugs.

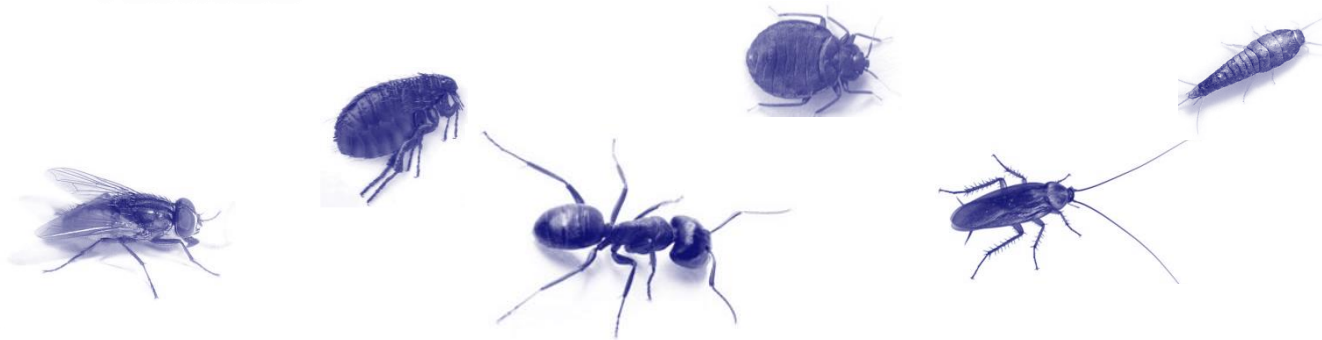

LONG LASTING. Under ideal conditions ALPHATHRIN will control pests for up to 3 months, with a single application.

VERSATILE. ALPHATHRIN can be applied in restaurants, hotels, day-care centers, kitchens, residential dwellings, commercial and industrial facilities & animal dwellings.

COST-EFFECTIVE. The low application rate of ALPHATHRIN makes it one of the most cost-effective pest control products whilst providing professional results.

ENVIRONMENTALLY FRIENDLY. ALPHATHRIN is biodegradable and does not build-up in the environment.
