

CTX 108

Reg. No. L7445

Act No. 36 of 1947

FOR DOMESTIC AND INDUSTRIAL USE

A ready-for-use organic solvent-based solution containing specifically blended insecticidal and fungicidal active ingredients that provides a colourless surface treatment for protection of seasoned timber against wood borer and termite attack as well as discolouring fungi and mould growth. **CTX 108** contains a high level of insecticide to provide long term protection and also to control and eradicate wood boring insects in infested timber.

ACTIVE INGREDIENTS:

Cypermethrin (Synthetic pyrethroid)	10,0 g a.i./ℓ (min)
TCMTB (Organosulphur compound)	8,0 g a.i./ℓ (min)

BATCH NO: _____

DATE MANUFACTURED: _____

NET VOLUME: _____ ℓ

WARNINGS

- Handle with care.
- Poisonous when swallowed and moderately toxic by skin contact. Irritating to eyes
- Toxic to fish and bees. (Minimally toxic to wildlife).
- Store in a cool place away from food and foodstuffs.
- **Flammable** – Do not store near open flames.
- Keep out of reach of children, uninformed persons and animals.

PRECAUTIONS

- Wear suitable protective clothing such as overalls and rubber gloves during handling and application of the product.
- Avoid eye splashes, skin contact and prolonged inhalation of vapours.
- Use in an open or well ventilated area.
- Thoroughly wash hands and contaminated skin with soap and water after use.
- Wash contaminated clothes daily.
- Do not eat, drink or smoke during application.
- Prevent contamination of food, foodstuffs, drinking water and eating utensils.
- Avoid contamination of the environment and do not discharge into rivers, dams and canals.
- Do not re-use empty containers for any other purpose. Puncture and/or flatten and dispose of at an approved landfill site.

NOTE:

When using spray application methods and in confined spaces, the use of approved respiratory equipment and eye protection is recommended.

POISONING:

Contact **Griffon Poison Information Centre** at 082 446 8946

The supplier does not accept responsibility for lack of performance of the product, damage to the environment or harm to man or animals due to failure of the user to follow the label instructions.

DIRECTIONS FOR USE

(Use only as directed)

CTX 108 is a ready-for-use formulation for protection of seasoned timber against insects and fungal discolouration.

On application, the organic solvent assists in the penetration of the active ingredients into the wood structure and ensures rapid drying of the treated surfaces. After drying, any coating/finish can be applied on the treated wood surface.

PREPARATION

New wood:

- Remove dust and foreign materials.
- Sand to a smooth finish.

Old wood:

- Remove paint or varnish-type coatings with “**Cote-Strip**”.
- Remove old waxy and oil-type finishes with “**Indeg**”.
- Remove fungal stains/discolouration with “**Timbrite**”.
- Sand surface to a smooth finish.

APPLICATION

- Ready for use. **DO NOT DILUTE.**
- Apply directly to clean, dry timber surfaces before application of final wood coating/finish.
- Use either brush-on, dip or spray application methods.
- Ensure that all surfaces are thoroughly covered and penetrated with the product, especially cut ends.
- Allow surface to dry before applying a final wood coating/finish.
- Repeat treatment every 2 to 4 years if the timber is left uncoated.

APPLICATION RATE (COVERAGE)

125 ml to 250 ml / m² (4 to 8 m² / ℓ) depending on surface smoothness and timber species.

**HARMFUL
SKADELIK**
