

Quality deterrent spikes to repel birds

- Made of the finest materials for extra longevity and effectiveness.
- Steel spikes contains spring of 1900N / mm² to resist birds and maintain spring in extreme temperatures. AISI 302 marine grade stainless steel, lasts exposures of more than 1000 hours of salty mists!
- 80% virgin polycarbonate base ensures rugged adherence to all substrates.
- UV resistant and a 10 Year manufacturer's guarantee.
- Secured with natural silicone, so no damaged caused to buildings.

E4-Gulls and pigeons

E6-Seagulls and crows

Unique design ensures easy application, greater durability and grip on all surfaces. Concave design, rough underside and holes in the mount allows the silicon to slip through for better adhesion.

Will not bend and allow birds to roost. 1.4mm thick spikes adheres to surface tension of 5.4Kg / cm².
