

PERMADUST

Dusting powder insecticide

(L.8605/ N-AR 1212)

Apply ready-to-use dry dusting powder to areas frequented by pests. Dry application with duster

Description:

ACTIVE Insecticide Dusting Powder is a broad spectrum, ready-to-use residual treatment for the control of crawling insects

Active ingredient:

Permethrin (Pyrethroid) 5 g/Kg, Piperonyl Butoxide (Synergist) 40g/Kg

Advantages:

- Application in areas where water and oil based insecticide formulations cannot be used, such as electrical motors
- No water, no mixtures
- Easy-to-use
- Versatile application to a wide spectrum of environments.
- Use on animal bedding.

Controls:

Cockroaches, Ants, Fleas, Bedbugs, Silverfish, Crickets and Beetles
