

ProFume®

The new standard in structural fumigation of wood destroying pests

GAS FUMIGANT

Reg. No. L10394 Act No. 36 of 1947
Contain: Sulphuryl fluoride

Setting a new standard in efficiency, professionalism and flexibility

- A **broad-spectrum cylinderized fumigant** effective on **all life stages** of insects, other arthropods and rodent pests.
- **Registered** for the fumigation of commodities, **structures and debarked wood** (including ISPM).
- **New software allows for flexible fumigation.** Long term cost effective fumigation or short term fumigation (as low as 16 hours) for quick turn around time.
- **Non-flammable, odourless, colourless gas** that rapidly vaporizes and distributes quickly.
- **Penetrates and aerates wood faster than Methyl Bromide.**
- **Inorganic gas** does **not leave surface residues** and is **completely inert** on surfaces, such as metals, rubber, glass and ceramic.
- **Not an ozone depleting substance.**
- Sulphuryl Fluoride has been the **primary fumigant in the USA** for structural fumigation for the past three decades.
- **Powerful app based software** takes the guess work out of fumigation.
